

CARBON FOOTPRINT

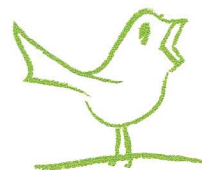

We are confirming that Ekogenca calculated the
CARBON FOOTPRINT OF THE FLASKA BOTTLE IN THE YEAR 2010.

Carbon footprint has been calculated in accordance with
the international product carbon footprint standard PAS 2050 for
the 4 Vivus company.

Carbon footprint of a **Flaska Neo 0.75l** in a 4-year lifetime measures
1.115 g CO₂e (bought in store) or **1.271 g CO₂e** (home delivered).

Carbon footprint of a **Flaska Classic 0.75l** in a 4-year lifetime measures
1.818 g CO₂e (bought in store) or **1.933 g CO₂e** (home delivered).
